

Use all the $2\frac{7}{8}$ " squares to make half square triangles. Place two triangles with right sides together and mark a line along the diagonal. Sew a $\frac{1}{4}$ " seam either side of the marked line and cut along the line to produce two half square triangles.

Lay the squares out in five rows of five. Basically you have a nine patch in the centre made using the $2\frac{1}{2}$ " blue and white squares. There's one blue square in the middle of each edge and the half square triangles are everywhere else.

Sew the squares together across the rows
Sew the squares together across each row and then sew the rows together to complete the duck and ducklings quilt block.
