Piecing the block: Using the stitch and flip method, sew 3 of the white squares to 3 corners of each 5" square and 1 of the (C) squares to the 4th corner of each square. Join the 4 squares with the larger, color, triangles in the center. Sew the shorter rectangles to each side and press to the white. Sew the longer rectangles to the top and bottom, also pressing to the white. Trim down to 12.5 inches.
